THRESHERMEN,

And those contemplating bu; ing a

Steam Thresher.

We are handling the Geiser Engine and Separator.

This Machine differs somewhat from other machines. botler has a device which prevents the water from becoming low in going down or up hill, keeping the crown sheet and flues covered, prevents them from being burned out, The

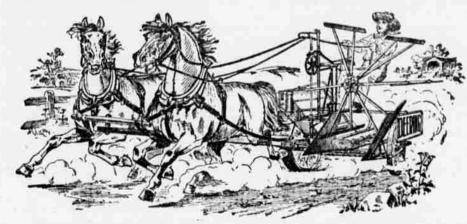

Separator has no sieves or anything to bother in changing from one kind of grain to another, which can be done without stopping, the machine. If you are thinking of buying write or call on us, and we will send catalogue, which explains the machine thoroughly. We propose to start all machines sold by us, and see that everything is in good order. Remember if you buy of us you will not have to wait for an expert two or three weeks. We will give you the best outfit ever sold in Custer county. We can also assist in getting a competent engineer. Can give such instruction as will enable any person of ordinary ability to run an engine in a few days. We are prepared to do Lathe Work and most anything that can be done in an ordinary Machine Shop.
